

Nucor Steel Tuscaloosa, Inc. has an immediate opening for:

Rolling Mill Shift Supervisor

Job Description:

The role of the Rolling Mill Shift Supervisor is to lead the safety effort in the Rolling Mill Department of our steel manufacturing plant. Duties and responsibilities include but are not limited to: production and maintenance planning; coordinating safety and housekeeping efforts; interview and selection of new team members; training and developing team members; continuous improvement efforts; coordinating operations with other departments. This position is also responsible for continuous improvement efforts on shift, for the department and Nucor Tuscaloosa as a whole. Nucor teammates are expected to participate in and promote an atmosphere of cooperation and team work. Safety is the most important part of all jobs within Nucor; therefore, candidates must be able to demonstrate the ability to initiate, lead and uphold safety policies, procedures, and housekeeping standards at all times.

Minimum Qualifications:

- 5 years minimum experience in steel manufacturing
- 3 years minimum experience in a leadership position in steel production
- 3 years minimum experience in hot rolling process

Preference shall be given to candidates who possess:

- Four year degree from an accredited university in engineering and/or business

Salary plus production bonus

Nucor Steel Tuscaloosa, Inc. offers competitive pay and benefits including Blue Cross Blue Shield Medical and Dental, 401(k) and a generous scholarship/tuition reimbursement plan for team members and dependents. If you meet the minimum qualifications listed above, follow the link below and provide the requested information:
